Response to Amendment

1. The reply filed on February 27, 2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant has canceled previous claims 1-18 to a planarization apparatus and corresponding method and system including a multi port slurry arm adapted to allow simultaneous deposition of two or more streams of one slurry at two or more different flow rates...and a control system adapted to control the pivoting of the slurry arm and in communication and coordination of the substrate holder and added new claims to apparatus and method with a control system to selectively position the arm based on an anticipated location of the substrate. Newly submitted claims 19-34 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the method and apparatus of new claims do not recite for a multi-port slurry arm providing two or more of either one slurry at different flow rates or two or more of different slurry solutions, and now recite for a different type of control system.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 19-34 are withdrawn from consideration as being directed to a non-elected invention. However, since applicant has cancelled all claims from the previous group of claims, there are no longer any claims in the application for action on the merits. Applicant should resubmit the previous group of claims in some form in response to this office action. See 37 CFR 1.111. See 37 CFR 1.142(b) and MPEP § 821.03.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case.

Art Unit: 3723

In either instance, the prior art applied to the previous invention, the evidence or admission may be used in a rejection under 35 U.S.C. 103 (a) of the other invention.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
